Itron Worker Safety

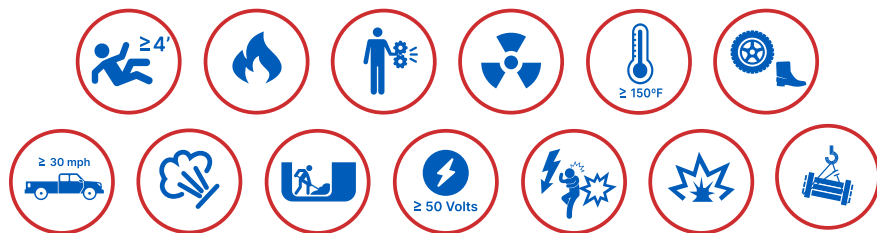

Safety Transformed at the Point of Work

Itron Worker Safety helps every crew work like your best crew by capturing and sharing real field expertise.

PRODUCT OVERVIEW

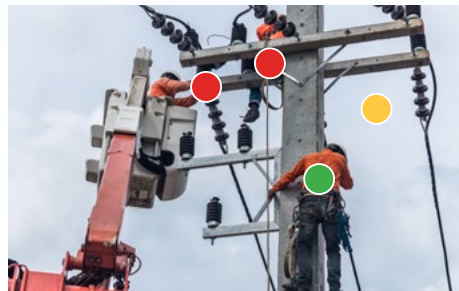

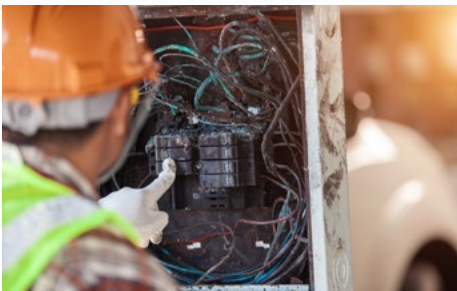

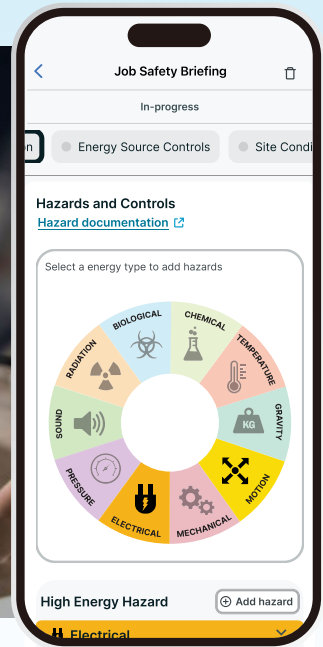

Itron Worker Safety brings the knowledge of experienced workers, the hazards they look for, the controls they use and the conditions they watch out for, into the daily workflows crews already follow. This helps teams plan better, avoid surprises and make safer decisions at the point of work. Leaders gain clearer visibility into field practices and coaching opportunities, while every completed job strengthens a continuous learning loop that makes the next job safer, smoother and more consistent.

Protect workers from injury by identifying safety threats and implementing preventive actions.

High-Energy Hazards

Help Every Crew Work Like Your Best Crew

Capture the expertise of experienced workers and bring it into the workflows crews already use every day. Itron Worker Safety helps teams plan jobs more effectively, recognize hazards earlier and avoid surprises in the field, leading to safer work, smoother execution and more consistent outcomes across the workforce.

Improve Hazard Recognition and Share Practical Guidance

Itron Worker Safety helps crews learn from what others have already seen on similar jobs and sites. By capturing tasks, hazards, controls and site conditions, the system provides practical guidance at the point of work so crews can identify risks earlier, apply the right controls and make better decisions in the field.

Build a Continuous Learning Loop Across the Workforce

Every job creates knowledge that can make the next job safer and more efficient. Itron Worker Safety captures and shares field expertise through Job Safety Briefs, observations and daily work planning workflows. Leaders gain clearer visibility into field practices and coaching opportunities, while crews benefit from shared learnings that strengthen safety culture over time.

OPERATIONAL RESILIENCE

Itron's software solutions use Artificial Intelligence and the latest industry science to predict and respond to emergencies, prevent damage to assets and keep people safe.

The largest energy and infrastructure companies trust Itron as their system of action to protect workers, assets, communities and the environment.
