

# Itron Emergency Preparedness & Response

## Predict, Prepare and Recover

Severe weather is more common and significantly more expensive, requiring greater preparation and tighter controls throughout the response.

Itron transforms storm response by connecting and streamlining all activities to provide faster power restoration, lower costs and optimal cost recovery.

**10%**

reduction in power restoration time

**< 90 min**

to request, evaluate and secure hundreds of line crews

**6M+**

person hours managed across 215+ storm events

### BEFORE EVENT

Accurate Impact Predictions

Rapid Resource Acquisition

Seamless Crew Logistics

### DURING EVENT

Painless Financial Management

Safe Work Execution

### AFTER EVENT

Cost Recovery & Continuous Improvement

**Predict Weather Impact on the Grid**

Emergency Preparedness & Response includes powerful forecasting to predict outage and asset impact, empowering resource staging.

**Secure Additional Crews Faster**

Immediately access mutual aid and additional contractors through automated outreach. Leverage centralized information to quickly secure and deploy crews.

**Seamlessly Manage Crews & Logistics**

Track crew locations, optimize resource distribution, distribute lodging assignments and meal allocations all in one central solution.

**Optimize Financial Performance & Recovery**

Minimize waste, track spend in real time and improve regulatory outcomes.

**OPERATIONAL RESILIENCE**

Itron is the world leader in operational resilience for energy and utilities. Itron's software solutions use Artificial Intelligence and the latest industry science to predict and respond to emergencies, prevent damage to assets and keep people safe.

The largest energy and infrastructure companies trust Itron as their system of action to protect workers, assets, communities and the environment. Learn more at [itron.com](http://itron.com)
